

2010 M&SOM Meritorious Service Award

Manufacturing & Service Operations Management (M&SOM) depends on the volunteer work of many professionals who take the time to provide careful and constructive reviews of the manuscripts submitted to the journal. In fact, in 2010 M&SOM received 581 reviews from 363 individuals. Remarkably, 61% of those reviews were submitted on or before their due date, a figure that increases to 69% if you allow a one-day grace period. Due in large part to the responsiveness of our reviewers, M&SOM made 96% of its 391 manuscript decisions for 2010 regular submissions and revisions within 75 days and 100% within 90 days.

While we deeply appreciate all those who served as reviewers for the journal in 2010, some individuals have distinguished themselves by reviewing several manuscripts and with each manuscript by writing a fair, critical, and constructive review in a timely fashion. In recognition of their outstanding service provided to support the journal's scholarly mission, M&SOM grants the 2010 Meritorious Service Award to

Atalay Atasu
