INFORMS is pleased to announce the introduction of our 14th journal, *Strategy Science*. The first issue is scheduled to be published in 2016.

*Strategy Science* is a quarterly journal that seeks to publish outstanding research directed to the challenges of strategic management in both business and nonbusiness organizations. This agenda encompasses a broad range of topics including relatively macro-level concerns of industry dynamics and the institutional context in which organizations operate to more organizational-level focused work, such as processes of organizational change, and important work that links the organization to its external context, such as questions of firm boundaries and strategic positioning.

The journal is eclectic with respect to methodologies, including field-based work, large-sample empirical work, and computational and analytic models. *Strategy Science* is open to a wide variety of underlying disciplinary approaches including economics, operations research, political science, psychology, and sociology. The critical issue with respect to publication is whether the work enhances, in some meaningful manner, our understanding of some substantive issues in the strategy domain.

**Topics include:**

- Industry Dynamics
- Corporate Strategy Technology
- Alliances and Interorganizational Relations
- Strategic Positioning
- Technology Strategy
- Organizational Adaptation

**Senior Editors**

Ron Adner, Dartmouth College  
Gautam Ahuja, University of Michigan  
Bill Barnett, Stanford University  
Laurence Capron, INSEAD  
Giovanni Gavetti, Dartmouth College

Javier Gimeno, INSEAD  
Michael Lenox, University of Virginia  
Myles Shaver, University of Minnesota  
Dennis Yao, Harvard University  
Todd Zenger, Washington University in St. Louis

The *Strategy Science ScholarOne Manuscripts site* is now open for submissions. To learn more about submitting a manuscript to *Strategy Science*, please read our [submission guidelines](http://pubsonline.informs.org/journal/stsc). The first volume of the journal will be published in 2016. We look forward to your submissions.
