INFORMS (The Institute for Operations Research and the Management Sciences) is an international scientific society with over 11,000 members dedicated to applying scientific methods to improve decision making, management, and operations. Operations research (O.R.) is the discipline of applying advanced analytical methods to help make better decisions.

INFORMS serves the scientific and professional needs of O.R. analysts, consultants, scientists, students, educators, and managers, as well as their institutions, by publishing a variety of journals that describe the latest research in O.R.
